STILL REACHABLE | CONNECTIVITY WORKSHEET

Number-transfer readiness sheet

A local checklist for porting an existing US number. Do not write a real transfer PIN, account number or password on this sheet.

Fictional teaching example

Source carrier	Fictional Carrier A	AT&T and T-Mobile have different pages
Source account owner	The primary account holder	Authority check
Line being moved	One line from a family account	Record the line, not the account number
Transfer PIN status	Requested today, expiration recorded	Do not write the PIN here
Account lock	Off	AT&T Wireless Account Lock or T-Mobile Port Out Protection
Device unlock	Unverified	Old carrier decides
Target plan	Verizon Simplicity, $45/month with AutoPay	Published price, before taxes and fees
First-month and tax treatment	First month not differentiated; taxes and fees extra	Read the price record
Old account exit cost	Not yet known	Final bill and any device balance
Remaining family lines	Effect not verified	Do not treat a one-line quote as the family total
Port date	Not scheduled	Old service stays active until complete
Go / no-go	No-go until the device and exit cost are confirmed	Reader decision

The carrier, PIN state and costs are invented. This is a preparation record, not a live port request.

Data version 2026-10-27.5. This is a local preparation sheet, not a carrier quote, an account approval, a device approval or a port request. Do not record an SSN, IMEI, transfer PIN, account number or password here.
